

# AMIEL MANZANO

Senior Software Engineer & Team Lead | Frontend: React, Next.js, Vue, TypeScript | AWS Certified  
Cebu City, Philippines | manzano.amiel.e@gmail.com | +63 915 940 3473 | [LinkedIn](#) | [Portfolio](#)

## SUMMARY

Senior Software Engineer and team lead with 5+ years of experience, specializing in frontend development with React, Next.js and Vue. Promoted from Junior to Senior in under two years. Leads engineers through the full delivery cycle, from specification analysis and sprint planning to code review, testing and AWS deployment. Holds AWS Certified Developer – Associate and Cloud Practitioner certifications, and has been named MVP of the Month seven times.

## EXPERIENCE

**Seed Tech Philippines — Cebu City** 03/2021 – Present

**Senior Software Engineer / Team Lead** 11/2022 – Present

- Lead a team of engineers across the delivery cycle: analyze specifications, schedule and assign tasks, and track progress in Backlog and Jira.
- Run daily scrums, sprint reviews and postmortems, and coordinate with the bridge engineer and project manager on features to build.
- Review code, mentor junior engineers, and handle AWS deployments and deployment documentation.
- Introduced frontend testing with Jest to improve code quality.
- Build the frontend of an apparel DX platform, converting Figma designs into web pages with React, Nuxt and Vue, and working with backend engineers on the APIs to integrate.

**Mid-Level Software Engineer / Team Lead** 02/2022 – 11/2022

- Built and deployed the CSV Downloader Shopify app using React, Node.js and AWS.
- Led a team through daily scrums, sprint reviews, task assignment and Backlog/Jira tracking, and conducted code reviews.
- Mentored junior engineers and handled AWS deployments and deployment documents.

**Junior Software Engineer** 03/2021 – 02/2022

- Served as project manager and frontend engineer for the training project: led planning, ran daily scrums and built the UI with Next.js.
- Built and deployed the Bulk Images Uploader Shopify app using React, Node.js and AWS.
- Delivered 2 Shopify stores through template customization and 1 headless Shopify store using Next.js and Contentful CMS.
- Converted Adobe UI files into web pages.

## SKILLS

**Frontend:** React.js, Next.js, Vue.js, Nuxt.js, JavaScript, TypeScript, HTML, CSS, Sass, Tailwind CSS, Bootstrap, Ant Design, Framer Motion

**Backend & Data:** Node.js, Express.js, Koa.js, PHP, Laravel, GraphQL, MySQL, MongoDB, NoSQL, Firebase

**Cloud & Tools:** AWS, Git, Jest, Figma, Shopify, Jira, Backlog

**Leadership:** Agile / Scrum, sprint planning, task assignment, code review, mentoring, cross-team coordination

## CERTIFICATIONS

- AWS Certified Developer – Associate | AWS Certified Cloud Practitioner | Certified Computer Engineer (CCpE)

## AWARDS

- MVP of the Month, seven times: June, October and November 2021; April and September 2023; January and April 2026.
- Seed Tech Award (Aug 2023); Nexseed Award of Excellence (Dec 2021); Awards of Appreciation (Jul 2021, Dec 2022).

## EDUCATION

**Full-Stack Web Development Certificate — Zuiitt Coding Bootcamp, Quezon City** 02/2021

Batch 86, Top 1

**BS Computer Engineering — University of St. La Salle, Bacolod City** 04/2020

Best Thesis, Computer Engineering Department (crop management and inventory system for mushroom farmers); ICpEP Region IV Quiz Bowl 1st Runner Up; ICpEP-USLS Secretary

## PROJECTS

---

- **MICE (JTB Asia Pacific)** — Travel quotation system for preparing and managing trip proposals, with itinerary details and pricing in one place. *ReactJS, Java, AWS, Figma*
- **STP Badminton Queue** — Mobile-friendly web app for managing a badminton queue. *ReactJS, Firebase*
- **Prock DX** — All-in-one platform for the apparel industry: 3D product production, merchandising, demand forecasting and PR. *NuxtJS, Laravel, AWS, Firebase*
- **Uniel Online Store** — Headless Shopify online store. *Next.js, Shopify, Node.js, nodemailer, CMS*
- **CSV Download (Shopify app)** — Lets merchants export any item to CSV using their own templates. Published on the Shopify App Store. *Shopify, React, SQL, AWS, Node.js*
- **Bulk Images Upload (Shopify app)** — Uploads product images in one ZIP and matches them to products by folder name (handle or product ID). Published on the Shopify App Store. *Shopify, React, PostgreSQL, AWS, Node.js*
- **Nexstore** — Online store app with PayPal, email (SMTP) and RapidAPI integrations. *Next.js, Node.js, MongoDB, PayPal, RapidAPI, SMTP, GitLab*
- **Brass Life** — Shopify jewelry store. *Shopify, Liquid, HTML, CSS, JavaScript*
- **Nuts Lab** — Shopify store for nut products. *Shopify, Liquid, HTML, CSS, JavaScript*
- **Budget Tracking** — Budget tracking app for managing personal finances, with Google login and email (SMTP). *Next.js, React, Node.js, Express, MongoDB, Heroku*
- **Booking System** — Reservation management system. *HTML, CSS, JavaScript, Node.js, Express, MongoDB Atlas, GitLab, Heroku*
- **Gym App** — Fitness app for tracking workouts and progress. *React, TypeScript, Tailwind, Framer Motion*
- **Portfolio V1** — Personal portfolio website. *Next.js, Bootstrap, Vercel*
- **Portfolio V2 UI Design** — UI design for a personal portfolio. *Figma*
- **Photography V1** — Photography showcase website. *HTML, CSS, JavaScript, GitHub*
- **Photography V2 UI Design** — UI design for a photography website. *Figma*
- **Design Project (thesis)** — Crop management and inventory system for mushroom farmers; firmware/hardware developer. Best Thesis, Computer Engineering Department. *HTML, CSS, JavaScript, PHP, C, Microcontrollers*
